

Request

Could the department tell me if it currently has any contracts with the software company Palantir and, if so: what kind of work these contracts are for; the value of the contracts; and the start and end date of said contracts.

To be clear, I am not asking for any confidential commercial information, just general contract information - as all government contracts go out for public tender.

DoF response

I can confirm the Department of Finance does not currently have any contracts with the software company Palantir.
