

LAWFULNESS, FAIRNESS AND TRANSPARENCY TEST

Application of FOI exemption Section 40(2) and EIR exception 12(3) 13(1)

DOF/2026-0216

A Lawfulness, Fairness and Transparency test must be carried out by the Department of Finance when considering disclosure of third-party personal data which falls within the scope of an FOI or EIR request.

FOI / EIR request

5. Please provide a copy of correspondence submitted to HR connect or NICS HR that discuss this vacancy or requesting AOs from the merit list. This request should also be extended to internal communications within child maintenance service and not limited to emails(should include teams communications and mobile device communications). Please also provide correspondence within child maintenance service that discusses vacancies in each of the last 4 months.

Consideration of the personal data falling within the scope of the request

Guidance from the Information Commissioner's office states that personal data only includes information relating to natural persons who:

- can be identified or who are identifiable, directly from the information in question; or
- who can be indirectly identified from that information in combination with other information.

Description of personal data/issue(s) under consideration:

The data held is in relation to the names of junior members of staff and the contact details of senior members of staff, contained in Annex C. Release of the requested information could risk the individuals being identified.

In order to process and release the personal data (i.e. name and contact details) of the individuals would require their consent. The department does not consider it appropriate to approach the individual to seek their consent for release of their name or contact details.

Lawfulness

Do either of the two lawful bases below, which allow for the disclosure of personal data, apply? **No**

- Consent:** This applies when the data subject(s) clear consent exists, allowing the department to disclose personal data falling within the scope of this request.

- Legitimate interests:** This applies when disclosure is necessary for the department's legitimate interests or the legitimate interests of a third party that overrides the data subject(s) rights and freedoms, particularly their right to privacy.

Conclusion

Having considered all the information contained within the Lawfulness, Fairness and Transparency Test, the department has established that, on balance, there is no lawful basis for the disclosure of third-party personal data falling within the scope of the request (of which the requester is not the data subject).
