Many thanks to the team for updating and issuing these documents. We have been tied up with JR issues for much of this week, but are very mindful of the need to share the ‘action pyramid’ for the Irish strategy

I wanted to highlight – as it is not explicitly listed in the timetable – that we agreed that CDWG members would now use the issued sequence and timetable to brief your Ministers as appropriate, and seek necessary approvals to be able to accomplish the work set out in the timetable, including engaging with delivery partners and providing SMART, costed actions by 23 January 2026

I am very happy to discuss further as necessary

Many thanks

Iainm
