**EMPLOYER PENSION NOTICE
CORRIGENDUM TO EPN 04/2026**

From: Civil Service Pensions

Date: 12 June 2026

To: All Employers

Re: PENSIONS INCREASE FOR 2026

Purpose: The purpose of this Corrigendum EPN is to advise employers of a typing error in the original EPN regarding the annual pension increase for 2026.

Timing: Immediate

Action: Employers should:

- note that the revised Employer Pension Notice attached at **Annex A** of this corrigendum has replaced the original version as published on the CSP(NI) website.

Background

1. Paragraph 2 of EPN 04-2026 - The Pensions Increase (Review) Order (NI) 2026 incorrectly stated that the pension increase for 22nd September 2025 to 21st October 2025 was 1.99%. The correct figure for this period is 1.90%.

22nd September 2025 to 21st October 2025	1.90%
--	-------

2. Employers can be reassured that the correct figure of 1.90% has been applied where appropriate to pensions in payment.

Note: Some pensions beginning before 2 April 1971 may receive more favourable increases under the Pensions (Increase) Acts 1920 to 1969, preserved by the Pension (Preservation of Increases) Order 1971. (This order does not apply to lump sums, for which the multipliers listed above should be used.)

INCREASES IN LUMP SUMS

A. Deferred lump sums which become payable on or after 6 April 2026.

These are eligible for the same increase as pensions which begin on the same date as the lump sum begins (See below)

B. Deferred lump sums and other lump sums with a “beginning date” before the date the pension came into payment.

- (i) If the lump sum became payable before 7 April 2025, it may have been eligible for increases under the Pensions (Increase) Act 1971. These should have been paid with the lump sum at the time it became payable. A further increase is payable on 6 April 2026 according to the table below.
- (ii) In years where there is an increase, if the lump sum began on or after April of the previous year (in this case it would have been 7 April 2025) an increase is payable in April (6 April 2026 in this case) according to the table below.

In calculating the length of period, count complete months starting with the beginning date (or 7 April 2025 if later), and then count the remaining days, excluding the payable date itself – e.g. 25 May to 7 July is 1 month (25 May to 24 June) and 12 days (25 June to 6 July).

Length of Period					Percentage Increase
	16 days	to	1 month	15 days	0.32
1 month	16 days	to	2 months	15 days	0.63
2 months	16 days	to	3 months	15 days	0.95
3 months	16 days	to	4 months	15 days	1.27
4 months	16 days	to	5 months	15 days	1.58
5 months	16 days	to	6 months	15 days	1.90
6 months	16 days	to	7 months	15 days	2.22
7 months	16 days	to	8 months	15 days	2.53
8 months	16 days	to	9 months	15 days	2.85
9 months	16 days	to	10 months	15 days	3.17
10 months	16 days	to	11 months	15 days	3.48
11 months	16 days	to	12 months	15 days	3.80

It is not possible for the period to exceed 11 months 29 days if correctly calculated.
