Statistical Work Programme

LPS Valuation Statistics

Date June 2026

Statistical Work Programme

LPS Valuation Statistics (House Price Index)

This report sets out the LPS Valuation Statistics statistical work programme. LPS Valuation Statistics have responsibility for the House Price Index, Housing Stock and New Dwelling statistics for Northern Ireland.

The statistical work programme outlines planned developments to the LPS Valuation Official Statistics. This has been released to remain transparent about our Official Statistics, adhering to the LPS Valuation Statistics revision policy; user engagement and the UK Statistics Authority's Code of Practice.

All LPS Valuation (NISRA) official statistics are produced and published in line with the [Code of Practice](#) (the Code), regulated by the Office for Statistics Regulation. This approach is aligned with the Code, in particular the principles of Value (V1: Relevance to Users) and Trustworthiness (T2 and T4).

The framework for the Code of Practice for Statistics is based on three core principles:

- Trustworthiness – having confidence in the people and organisations that produce statistics and data
- Quality – using suitable data and appropriate methods that produce assured statistics

Value – producing statistics that benefit the public by informing and supporting decision making, action and debate.

1. Statistics at LPS Valuation

NISRA outposted staff within LPS Valuation are committed to providing accurate, timely and high quality Official Statistics publications to inform government policy development and operational decision-making. Outputs are developed with user needs in mind and disseminated in accordance with the Code of Practice.

Key Users to LPS Valuation Statistics

Official Statistics are used by a range of users, including:

- Ministers
- Policy and Operational officials
- Parliament
- Local authorities
- External interest groups
- Media and external commentators
- Academics
- Members of the public

A full list of LPS Statistics outputs can be found at [this link](#).

Statistical publications are announced in the [GOV.UK statistics release calendar](#) and published on the [DOF LPS statistics webpage](#)

Additional Analytical Support

As well as producing and developing statistics, we also provide briefing for Ministers and policy teams; responds to Parliamentary Questions; handles Freedom of Information requests; and answers ad hoc queries from internal and external stakeholders.

Charges for Supplementary statistical services

LPS Valuation Statistics are provided free of charge where published as Official Statistics, in line with the Code of Practice and principles of open access.

Supplementary requests for statistics are handled as business as usual, for example, Freedom of Information requests.

Charges may apply where user request bespoke analysis requiring significant additional resource. Any charge would be applied in line with Department of Finance and wider government guidance.
