Morning [redacted]

As discussed with yourself and [redacted], content to take through the proportion of 7% (5 GIS candidates) and we can revisit after sift if needs be.

Kind regards

Subject: IRC321611 - GIS
Importance: High

Good Morning [redacted],

We are preparing test results to issue today but checking our GIS numbers, there is only 2 GIS candidates within the top 60 scorers that would currently progress to sift.
However, we need a portion of 7% to progress and also ensure sufficient proceed to interview.

Would you be content we either bring forward all GIS candidates who passed the test (24) or a number to ensure sufficient proceed to interview?

Grateful for urgent confirmation please.

Many thanks,

[redacted]
