

CPD DYNAMIC SHORTLISTING SYSTEM

DEFINITION OF FACILITY CATEGORIES

A. Buildings and schemes with non-critical* engineering services installations and non-specialist equipment, e.g.** non-acute hospital buildings with normal structures and engineering services installations, clinics and health centres, old persons' homes, children's' homes, residential homes for people with physical and/or learning difficulties, day centres, training centres, fire and ambulance stations, schools, residential developments that do not comprise single dwelling units, general purpose halls, and surface and multi-storey car parking schemes that include engineering services installations such as access control systems, CCTV, street lighting.

B. Acute hospitals, specialist medical units and non-health sector multi-functional/ mixed occupancy buildings with critical* engineering services installations and specialist equipment, e.g.** critical care wards, operating theatres, renal units, CSSD's and high technology manufacturing/ production/ laboratory facilities, power stations, prisons and major infrastructure schemes.

*Critical engineering services installations are services which if Interrupted will cause a serious risk to the health and safety of the occupants of a facility and/or have major consequences for the functional operation of a facility.

**Examples given are for indicative purposes only, and each application will be assessed on the basis of the specific content of the schemes. Examples can also include evidence of experience gained working in Joint Ventures / Consortia or other formal collaborative working arrangements.

WORK CATEGORIES - BUILDING

1. New Building/Extensions.
2. Alterations/Refurbishment

WORK CATEGORIES – CIVIL ENGINEERING

1. Civil Engineering – Roads, Bridges, Bulk Excavation, Sewage Works, etc

WORK CATEGORIES – ELECTRICAL

1. HV Mains Cabling and Switchgear Installation
2. LV Mains Cabling and Switchgear Installation
3. Lighting and Power Installations
4. Control, Alarm and Signalling Installation
5. Generator Plant Installation

WORK CATEGORIES – MECHANICAL

1. Low Pressure Hot Water Heating Systems
2. Steam and Condensate, HPHW and MTHW systems
3. Large Steam HPHW and MTHW Boiler Installations
4. Air Conditioning and Ventilation Systems
5. Plumbing Installations etc
