Statement/ Note	Change	Reason
FReM Proformas	Amendments to the FReM	To reflect changes due to implementation of the <i>Simplifying and Streamlining Accounts</i> project

SoAS – Statement of Assembly Supply

SoFP – Statement of Financial Position

SoCiTE – Statement of Changes in Taxpayers Equity

SoCNE – Statement of Comprehensive Net Expenditure

201X–1Y NDPB Green: illustrative accounts

1. The illustrative accounts for “NDPB Green” (a fictitious Executive NDPB) comprise:

A) Accountability Report

- Corporate Governance Report which, as a minimum, must include the Directors’ Report; the Statement of Accounting Officer’s Responsibilities; and the Governance Statement. (see FReM 5.3.7-8)
- Remuneration and Staff Report
- Assembly Accountability and Audit Report, which comprises:
 - Assembly Accountability Disclosure notes, and
 - The Certificate and Report of the C&AG (see FReM 5.3.30-34)

B) Financial Statements

- Statement of Comprehensive Net Expenditure;
- Statement of Financial Position;
- Statement of Cash Flows;
- Statement of Changes in Taxpayers’ Equity;
- Notes to the accounts.

2. The accounts are for illustration only and should only be followed as the circumstances of an individual NDPB dictate. The accounts do not show every line item which may be necessary in the circumstances of an individual NDPB and each NDPB should assess whether disclosures are relevant and material to its circumstances.

3. In line with the implementation of the Simplifying and Streamlining Accounts project, notes to the accounts will only be required for material balances. The removal of non-material balances, with a recognition that materiality is not restricted to just monetary value, will significantly streamline and simplify the accounts ensuring that the user is only presented with and can focus on relevant and material information. There will be no diminution of audit scope or depth, only the presentation of the information will be affected. However, specific notes should still be reported for those entities covered by Managing Public Money Northern Ireland, where additional disclosures are necessary to meet Assembly Accountability requirements.

A) Accountability Report

Remuneration and Staff Report

a) Remuneration Report

Entities should prepare the remuneration report as specified in the FReM.

b) Staff Report

1. Staff costs and numbers (and relevant disclosures) have been relocated to Remuneration and Staff Report.
2. Entities should provide an analysis of staff numbers distinguishing between:
 - Staff with a permanent (UK) employment contract with the entity;
 - Other staff engaged on the objectives of the entity (for example, short term contract staff, agency/temporary staff, locally engaged staff overseas and inward secondments where the entity is paying the whole or the majority of their costs). Where the number of staff under any one category of 'other staff' is significant, that category should be separately disclosed.
3. NDPBs should refer to the FReM and PES paper for details of other elements that will be required to be disclosed in the staff report. These comprise of:
 - Staff composition
 - Off payroll disclosures
 - Consultancy costs
 - Sickness absence data
 - Number of SCS (or equivalent) staff by band
 - Staff policies applied in year

Redundancy and other departure costs have been paid in accordance with the provisions of the Civil Service Compensation Scheme (Northern Ireland), a statutory scheme made under the Superannuation (Northern Ireland) Order 1972. Exit costs are accounted for in full in the year of departure. Where the NDPB has agreed early retirements, the additional costs are met by the NDPB and not by the Civil Service pension scheme. Ill-health retirement costs are met by the pension scheme and are not included in the table.

[Note: entities should provide additional text if any payments are not covered by the CSCS (NI), for instance, ex-gratia payments agreed with DFP or scheme details where using another scheme.]

Assembly Accountability Disclosure Notes

NDPBs should refer to the FReM and any additional guidance from DFP for details of other disclosures that will be required to be disclosed under the Assembly accountability section.

i. Losses and special payments

The following sections are subject to audit

Losses Statement

NDPBs should include a note on losses if the total value exceeds £250,000. Individual losses of more than £250,000 should be noted separately.

	201X-1Y £000	201W-1X £000

<i>[List cases]</i>		
Fruitless payments		
<i>[List cases]</i>		
Store Losses		
<i>[List payments]</i>		

Comparatives should be given for category totals. The list of cases need only be provided for the current year.

Where the headings are not appropriate they do not need to be disclosed.

Special Payments

NDPBs should include a note on special payments if the total value exceeds £250,000. Individual payments of more than £250,000 should be noted separately. In the case of reporting on special payments which are severance payments, the detail to be disclosed should include the number of special severance payments made, the total amount paid out, and the maximum (highest), minimum (lowest) and median values of payments made. Where an NDPB's reporting of special severance payments does not include some or all of these details in circumstances in which doing so would conflict with a legal obligation arising as a result of the Data Protection Act 1998, or otherwise, this fact should also be disclosed.

	201X-1Y £000	201W-1X £000
Total number of special payments		
Total value of special payments (£000)		
Details of special payments over £250,000		
<i>[List cases]</i>		

Comparatives should be given for category totals. The list of cases need only be provided for the current year.

Other notes

If NDPBs have made any other significant payments, including making gifts, these should be disclosed.

ii. Fees and Charges

This section is subject to audit

Where the income and full cost of the service are material in the context of the financial statements NDPBs should provide the additional fees and charges disclosures as detailed in the FReM. The analysis should include the following information for each service:

- i. the financial objective (s) and performance against the financial objective(s);*
- ii. the full cost and unit costs charged in year;*
- iii. the total income received in year;*
- iv. the nature/extent of any subsidies or overcharging*

iii. Remote Contingent Liabilities

This section is subject to audit

In addition to contingent liabilities reported within the meaning of IAS 37, the department also reports liabilities for which the likelihood of a transfer of economic benefit in settlement is too remote to meet the definition of contingent liability. **[Insert list with explanatory narrative]**

B) Financial Statements

In line with the implementation of the Simplifying and Streamlining Accounts project, notes to the accounts will only be required for material balances. The removal of non-material balances, with a recognition that materiality is not restricted to just monetary value, will significantly streamline and simplify the accounts ensuring that the user is only presented with and can focus on relevant and material information. There will be no diminution of audit scope or depth, only the presentation of the information will be affected.

Statement of Comprehensive Net Expenditure

for the year ended 31 March 201Y

This account summarises the expenditure and income generated and consumed on an accruals basis. It also includes other comprehensive income and expenditure, which include changes to the values of non-current assets and other financial instruments that cannot yet be recognised as income or expenditure.

Row headings in this statement should be based on a NDPB's material sources of income and expenditure. Where a NDPB considers that an alternative format is required to improve the understanding of the body's financial performance, they should seek the approval of the relevant authority.

Statement of Financial Position

as at 31 March 201Y

In line with the implementation of the Simplifying and Streamlining Accounts project, NDPBs will still be responsible for adding sub-headings to the statement as necessary.

This statement presents the financial position of [the NDPB]. It comprises three main components: assets owned or controlled; liabilities owed to other bodies; and equity, the remaining value of the entity.

Statement of Cash Flows

for the year ended 31 March 201Y

The Statement of Cash Flows shows the changes in cash and cash equivalents of the NDPB during the reporting period. The statement shows how the NDPB generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of service costs and the extent to which these operations are funded by way of income from the recipients of services provided by the NDPB. Investing activities represent the extent to which cash inflows and outflows have been made for resources which are intended to contribute to the NDPB's future public service delivery.

In line with the implementation of the Simplifying and Streamlining Accounts project proposes a change to this statement which removes unnecessary complexity and a significant amount of extraneous detail that does not assist the user. NDPBs will retain the flexibility and freedom to add additional headings as necessary for their individual circumstances.

Statement of Changes in Taxpayers' Equity

for the year ended 31 March 201Y

This statement shows the movement in the year on the different reserves held by [the NDPB], analysed into 'general fund reserves' (i.e. those reserves that reflect a contribution from the Consolidated Fund). The Revaluation Reserve reflects the change in asset values that have not been recognised as income or expenditure. The General Fund represents the total assets less liabilities of an Agency, to the extent that the total is not represented by other reserves and financing items.

In line with the implementation of the Simplifying and Streamlining Accounts project proposes a change to this statement which removes unnecessary complexity and a significant amount of extraneous detail that does not assist the user, while retaining those elements that are essential to reflect the funded nature of NDPBs. NDPBs will retain the flexibility and freedom to add additional headings as necessary for their individual circumstances.

NDPB Green – Annual Report and Accounts 201X-1Y

Notes to the NDPB's Accounts

1. Statement of accounting policies

These financial statements have been prepared in accordance with the 201X-1Y *Government Financial Reporting Manual (FReM)* issued by [*insert name of issuing authority*]. The accounting policies contained in the FReM apply International Financial Reporting Standards (IFRS) as adapted or interpreted for the public sector context. Where the FReM permits a choice of accounting policy, the accounting policy which is judged to be most appropriate to the particular circumstances of the [*insert name of NDPB*] for the purpose of giving a true and fair view has been selected. The particular policies adopted by the [*insert name of NDPB*] [for the reportable activity] are described below. They have been applied consistently in dealing with items that are considered material to the accounts.

1.1 Accounting convention

These accounts have been prepared under the historical cost convention modified to account for the revaluation of property, plant and equipment, intangible assets and inventories.

A description of the accounting policies for all material items should then follow. Headings might include:

- *Property, plant and equipment, with other headings for donated, heritage and infrastructure assets as appropriate*
- *Depreciation*
- *intangible assets*
- *investments*
- *inventories*
- *research and development expenditure*
- *operating income*
- *foreign exchange*
- *leases*
- *Service Concessions (PPP/PFI)*
- *Financial Instruments*
- *grants receivables*
- *provisions (including the discount rate used where the time value of money is significant and the estimated risk-adjusted cash flows are discounted)*
- *estimation techniques used and changes in accounting estimates (see in particular IAS 8.32 to 40)*
- *value added tax*
- *third party assets*

NDPBs must include the following notes where material and should tailor them to the NDPB's circumstances.

1.aa Pensions

Past and present employees are covered by the provisions of the [name of the scheme]. *Details of Scheme here.*

Entities should disclose details of the methods and assumptions used in preparing the sensitivity analyses, the limitations of these methods, and the reasons for any changes in methods and assumptions used in preparing the sensitivity analyses. To provide an indication of the effect of the defined benefit plan on the entity's future cash flows, entities should disclose a description of any funding arrangements and funding policy that affect future contributions, the expected contributions to the plan for the next annual reporting period, and information about the maturity profile of the defined benefit obligation. Where relevant, an entity should disclose a description of any asset-liability matching strategies used by the entity, including the use of annuities and other techniques.

1.ab Contingent liabilities

In addition to contingent liabilities disclosed in accordance with IAS 37, the NDPB discloses for Assembly reporting and accountability purposes certain statutory and non-statutory contingent liabilities where the likelihood of a transfer of economic benefit is remote, but which have been reported to the Assembly in accordance with the requirements of *Managing Public Money Northern Ireland*.

Where the time value of money is material, contingent liabilities which are required to be disclosed under IAS 37 are stated at discounted amounts and the amount reported to the Assembly separately noted. Contingent liabilities that are not required to be disclosed by IAS 37 are stated at the amounts reported to the Assembly.

1.ac Impending application of newly issued accounting standards not yet effective

Where material, the NDPB must disclose that it has not yet applied a new accounting standard, and known or reasonably estimable information relevant to assessing the possible impact that initial application of the new standard will have on the NDPB's financial statements.

2. Statement of Operating Costs by Operating Segment

Narrative to disclose:

- factors used to identify the reportable segments;
- the types of activities for which each reportable segment attracts funding;
- how reportable segments are reported to the CODM;
- a description of each segment and how it fits into the NDPB's activities;
- any differences between information in the statement of operating costs by operating segment and primary financial statements;
- the basis of accounting for any transactions between reportable segments;
- changes from prior year segment identification methods; and
- reliance on major customers.

**In accordance with IFRS 8, if total liabilities, net assets or additional information is reported separately to the Chief Operating Decision Maker, disclosure should be made in the resource accounts.*

NDPBs should also provide reconciliations of:

- *The total of the reportable segments' net expenditure to total net expenditure per the SoCNE if different;*
- *The total of the reportable segments' assets to the department's assets per the SoFP if different;*
- *The total of the reportable segments' liabilities to the department's liabilities per the SoFP if they are reported separately to the CODM and are different.*

3. Other Operating Costs

Entities should provide an analysis of operating costs as recorded in the Statement of Comprehensive Net Expenditure in separate notes to the financial statements. This should include staff costs as set out above, service charges under PFI contracts, the individual components of non-cash items, and an analysis of other significant expenditure items.

Under the streamlining project there is no longer a requirement to separately classify administration and programme costs. However entities should ensure they are able to provide a breakdown to their auditors.

In addition, other expenditure should be analysed and any significant items listed individually as part of this table. You should NOT insert a shoulder heading of 'other' and then provide a separate note analysing 'other'.

During the year the NDPB purchased the following non-audit services from its auditor, [name Auditor, e.g. the National Audit Office][list services received with details of cost]

4. Income

All reporting entities should provide an analysis of operating income, together with commentary where appropriate, that enables users of the financial statements to understand the nature of the entity's operating income.

Income should be analysed by type (sales of services; sales of goods; interest; royalties; and dividends) as required by IAS 18 with any significant items listed individually (examples might be sales of publications, passport fees). Non-cash income should be disclosed separately where material.

Care should be taken when describing the income so that a reader of the accounts can understand what it is that the NDPB does to earn the income. Descriptions on their own of 'fees and charges from external customers' and 'fees and charges from internal customers' are not helpful.

4.1 Consolidated Fund Income

The following statement should be included where separate trust statements are published for the NDPB: Consolidated Fund income shown in note 4 above does not include any amounts collected by the NDPB where it was acting as agent of the Consolidated Fund rather than as principal. Full details of income collected as agent for the Consolidated Fund are in the NDPB's Trust Statements, published separately from but alongside these financial statements.

Otherwise, where the NDPB collects income on behalf of the Consolidated Fund and doesn't prepare a Trust Statement, disclosure should be made in the note in the format below:

Consolidated Fund income shown in note 4 above does not include any amounts collected by the NDPB where it was acting as agent for the Consolidated Fund rather than as principal. The amounts collected as agent for the Consolidated Fund (which are otherwise excluded from these financial statements) were:

If relevant, NDPBs should disclose the value and category of any donated assets during the year. Where the assets were donated by a related party, the name should be given.

NDPBs should disclose the names and qualifications of the valuers of any assets, what assets they valued, and the date on which assets were valued during the year. If relevant, the note should also state that property, plant and equipment are valued using indices.

7. Financial Instruments

ONLY where the NDPB is exposed to risk should the appropriate IFRS 7 disclosures be made. **Material financial risk includes significant credit risk from receivables.** Disclosures should be given only where they are necessary because the NDPB holds financial instruments that are complex or play a significant role in the financial risk profile of the NDPB. In such cases NDPBs should explain the significance of such instruments as required by IFRS 7 and disclose the carrying values following the requirements of the FReM and IAS 32 and IAS 39 and within the IFRS 7 headings to the extent they are relevant. Where the NDPB does not face significant financial risks, then it is sufficient to make a statement to that effect – similar to that above. (Given that all NDPBs have financial instruments within the scope of IAS 32, silence is not an option.).

As the cash requirements of NDPB Green are met through Grant-in-Aid provided by Department X, financial instruments play a more limited role in creating and managing risk than would apply to a non-public sector body. The majority of financial instruments relate to contracts to buy non-financial items in line with the NDPB's expected purchase and usage requirements and the NDPB is therefore exposed to little credit, liquidity or market risk.

8. Impairments

Where material, NDPBs should insert a note that reports the total impairment charge for the year, showing how much has been charged direct to the Statement of Comprehensive Net Expenditure and how much has been taken through the general reserve.

9. Assets Held for Sale

Where material, departments should provide a note analysing movements in assets held for sale.

10. Inventories

Where material, NDPBs should provide a note analysing inventories by significant categories.

17. Commitments under PFI contracts and other service concession arrangements contracts

17.1 Off-balance sheet (SoFP)

For each material PFI (and other service concession arrangement) contract, this note should:

- state what the contract is for and note that the property is not an asset of the NDPB;
- give the estimated capital value; and
- give details of any prepayments, reversionary interests, etc and how they are accounted for.
- disclose the total payments to which they are committed for each of the following periods.

The total amount charged in the Statement of Comprehensive Net Expenditure in respect of off-balance sheet (SoFP) PFI or other service concession transactions was £s,000 (201W–11: £s,000). Total future minimum payments under off-balance sheet PFI and other service concession arrangements are given in the table below for each of the following periods.

	201X-1Y £000	201W-1X £000
Not later than one year		
Later than one year and not later than five years		
Later than five years		

17.2 On-balance sheet (SoFP)

NDPBs should ensure they disclose total commitments which consist of:

- *Imputed finance lease charges; and*
- *Ongoing service elements committed – these are considered to be charges made to the statement of comprehensive net expenditure (excluding interest).*

Where there are other charges in the contracts, these should be attributed to capital, interest or service elements, unless considered material to be reported separately. NDPBs are reminded to refer to the disclosure requirements provided in IAS 17, IFRIC 12 and SIC 29 when producing PFI and other service concession arrangement disclosures.

The total amount charged in the Statement of Comprehensive Net Expenditure in respect of the service element of on-balance sheet PFI or other service concession transactions was £s,000 (201W–11: £s,000). Total future obligations under on-balance sheet PFI and other service concession arrangements are given in the table below for each of the following periods:

	201X-1Y £000	201W-1X £000
Minimum lease payments:		
Due within one year		
Due later than one year and not later than five years

18. Other financial commitments

The NDPB has entered into non-cancellable contracts (which are not leases or PFI and other service concession arrangements), for *[state what service is being provided to the NDPB]*. The total payments to which the NDPB is committed are as follows *[NDPBs may decide that this disclosure is not necessary if the totals can be easily identified by a reader from the notes above]*:

	201X-1Y £000	201W-1X £000
Not later than one year		
Later than one year and not later than five years		
Later than five years		
Total		

19. Contingent liabilities

The NDPB has the following contingent liabilities (list with explanatory narrative).

The NDPB has entered into the following unquantifiable contingent liabilities (list with explanatory narrative).

Guarantees, indemnities and letters of comfort should normally be issued by departments rather than NDPBs or other bodies. Where, exceptionally, an NDPB has given a guarantee, indemnity or letter of comfort and it is significant in relation to the department, details should be noted here.

20. Related-party transactions

The NDPB should disclose here its parent and other bodies sponsored by its parent. These bodies are regarded as related parties with which the NDPB has had various material transactions during the year.

In addition, the NDPB has had [a small number of][various material] transactions with other government departments and other central government bodies.

No board member, key manager or other related parties has undertaken any material transactions with the NDPB during the year. *[Drafting note: if there have been material transactions, they should be disclosed.]*

If not disclosed elsewhere in the annual report and accounts, entities shall disclose the name of each of its subsidiaries, or provide a web link to where this information is available. If the entity has significant holdings in undertakings other than subsidiary undertakings, then the following must be disclosed:

- The name of the undertaking;
- If the undertaking is incorporated outside the UK, the country in which it is incorporated, or, if it is unincorporated, the address of its principal place of business;
- The identify of each class of shares in the undertaking held by the company and the proportion of the nominal value of the shares of that class represented by those shares; and
- If the entity holds more than 50% of the nominal value of the shares in the undertaking, the aggregate amount of the capital and reserves of the undertaking as at the end of its financial year and its profit or loss for that year, if material.

21. Third-party assets

These are assets for which an entity acts as custodian or trustee but in which neither the entity nor government more generally has a direct beneficial interest. Third party assets are not public assets, and should not be recorded in the primary financial statements. Material third party assets should be disclosed.

Where significant the note should differentiate between:

- a) Third party monies and listed securities: the minimum level of numerical disclosure required is a statement of closing balances at financial year-end. For listed securities, this will be the total market value. Optionally, when considered significant by the entity and at its discretion, further disclosures may be made, including gross inflows and outflows in the year and the number and types of securities held;
- b) Third party physical assets and unlisted securities: disclosure may be by way of narrative note. For physical assets, the note should provide information on the asset categories involved. Such disclosure should be sufficient to give users of the financial statements an understanding of the extent to which third-party physical assets and unlisted securities are held by the entity; and
- c) In the event that third party monies are found to have been in a public bank account at the end of an accounting year, commentary should be included in the note on cash at bank and in hand and in the disclosures above on the amount of third party monies held in the bank account.

Other significant assets held at the reporting period date to which it was not practical to ascribe monetary values comprised *[insert details of any investments in unlisted non monetary financial assets and of physical assets]*.

[Disclosures as detailed above to follow]

22. Events after the Reporting Period

NDPBs should insert here, if relevant, a note that reports the non-adjusting events after the reporting period date that are of such importance that non-disclosure would affect the ability of users to make proper evaluations and decisions.

Date of authorisation for issue

The Accounting Officer authorised the issue of these financial statements on XX Month 201Y.
