SECTION 1

Introduction to Northern Ireland Supplementary Estimates

- Role of Estimates**
1. Estimates set out the detailed spending plans of Northern Ireland departments and certain other public bodies and form the basis for the authorisation by the Northern Ireland Assembly of sufficient funding and resources for services as detailed in the corresponding Budget Act.
- Resource-based format of the Estimates**
2. Estimates are presented on a resource basis but approval is required for both resource consumption and cash spend. The resource-based Supply arrangements are described in detail in Section 2 of the 2015-2016 Main Estimates volume.¹
 3. The Estimates along with the associated legislation provide the appropriate authority for the Northern Ireland departments' spending. Departments draw up Resource Accounts on the basis of their actual expenditure and these accounts are subject to audit by the Comptroller and Auditor General for Northern Ireland. Accounts are also laid before the Northern Ireland Assembly.
- Main Estimates**
4. The 2015-2016 Main Estimates for Northern Ireland departments were laid in the Assembly in June 2015. The Spring Supplementary Estimates in this volume give details of further provision, both resources and cash, proposed during the remainder of 2015-2016.
 5. A comprehensive guide to the Estimates of Northern Ireland departments was included in the 2015-2016 Main Estimates volume.¹ This explains the relationship between public expenditure plans and Northern Ireland Estimates and gives information about the process through which the services of Northern Ireland departments are funded. The following paragraphs provide some further information about Supplementary Estimates.
- Reason for Supplementary Estimates**
6. Supplementary Estimates seek authority for additional resources and/or cash to that sought in the Main Estimates for the financial year. They may be presented:
 - i. to seek authority, and additional resources and/or cash as necessary, for any new services;
 - ii. to increase the provision for existing services;
 - iii. to increase net resources because a shortfall is expected in accruing resources;
 - iv. to increase the limit on accruing resources that may be used for services; and
 - v. to draw attention to the diversion of funds already voted for one service, to another service within the same Request for Resources. This is done when the reallocation is substantial, likely to be controversial or involves a new service.

¹ Northern Ireland Estimates 2015-2016, TSO ISBN 9-78-0337-09986-1

- Reducing Estimates**
7. From 2002-03, transparency in the Northern Ireland Supplementary Estimates has been improved by the inclusion of reducing Estimates. The reductions between Main Estimates and the Supplementary Estimates are now shown for both net resources relating to one or more Requests for Resources and the overall Net Cash Requirement for the Estimate.
- Format of Supplementary Estimates**
8. Each Supplementary Estimate begins with an introduction describing the main aim of the department and detailing the proposed changes in the resource and cash requirements of the Department.
9. Part I of each Supplementary Estimate states the change in net resource and cash requirements for the financial year. It also reproduces the “ambit”, which is a formal description of all services (not just any new services) to be financed from the Estimate.
10. Part II of the Supplementary Estimate contains three tables. The first table identifies the lines within each Request for Resources where changes are being proposed and also shows capital and cash. This is followed by a reproduction of the original main Estimate Part II table showing the revised subhead detail including the revised provision sought for each subhead (including unchanged subheads) as a result of the Supplementary. The third table shows a reconciliation between the net resource total and the net cash requirement.
11. Part III of the Estimate shows, as necessary, any changes to the income and/or receipts which are not used as offsets to the gross provision by way of accruing resources, but are paid into the Consolidated Fund.
12. Each Supplementary Estimate is supported by similar tables and statements to those accompanying the Main Estimate (Statement of Comprehensive Net Expenditure, Reconciliation of Resource expenditure between Estimates, Accounts and Budgets, Reconciliation of Capital expenditure between Estimates and Budgets, etc and notes broadly analogous to those appended to the resource-based Main Estimates, either restated or updated).
- Accruing Resources**
13. Under Section 8 of the Government Resources and Accounts Act (NI) 2001, a direction on the actual use of accruing resources is provided by way of a DFP Minute being laid before the Assembly. The Minute directs the use as accruing resources of such sums shown in the Estimates as would otherwise have been required to be surrendered to the Consolidated Fund. The source of all types of income to be offset against the gross requirements is shown in the form of a Note to each Estimate.
- Accounting Policy Changes**
14. As a result of the FReM adaptation to IAS 20, Accounting for Government Grants, the Donated Asset Reserve (DAR) and the Government Grant Reserve (GGR) have been removed.
15. These accounting policy changes are reflected in all departmental Spring Supplementary Estimates for 2015-2016.
16. Where the removal of the DAR/GGR has resulted in an increase in expenditure for departments, a note to the relevant Estimate has been included stating the Prior Period Adjustment (PPA) in respect of the previous two years rather than including a PPA in the Estimate.
- Procedure and timing**
17. Spring Supplementary Estimates are normally published in February. However, when necessary, further Supplementary Estimates covered by appropriate legislation may be introduced at other times.
18. Table 1 details the sums, both resources and cash, already voted for 2015-2016 along with the revised sums required in these Supplementary Estimates.

Learning

DEPARTMENT FOR EMPLOYMENT AND LEARNING

Introduction

1. The services provided under this Estimate are administered by the Department for Employment and Learning. This provides for expenditure by the Department in taking forward its aim of promoting a culture of lifelong learning and to equip people to work in a modern economy. It provides for expenditure on higher education (including universities and colleges of education); further education; youth and adult skills training; management and enterprise training; student support and other matters relating to tertiary education, including grants-in-aid to certain bodies, grants in respect of Educational Maintenance Allowances and certain payments to the Department of Education and the Department for Business, Innovation & Skills; repayment of loans; labour market services including employment law, tribunals, labour relations and employer support; employment schemes and services including those for people with disabilities and career information, advice and guidance services; payments under European Union Programmes; administration costs, including redundancy payments, severance payments, departmental research; prior period adjustments and other associated non-cash items.
2. As part of the arrangement for the transfer of training centres to Further Education Colleges, the Department agreed that, for staff who became redundant in the future, it would fund any difference between their redundancy payment and that which they would have received had they remained in the Northern Ireland Civil Service. Due to the inherent uncertainty as to the amount and timing of the future redundancy payments the Department has underwritten, it is not practical to quantify the potential liability that might arise from this undertaking.
3. This Supplementary Estimate reflects the changes to the opening Budget position for 2015-16 made in the June, November and January monitoring rounds as advised to the Northern Ireland Assembly, as well as the in-year changes to the Annually Managed Expenditure (AME) forecast.
4. As a result of all changes there is a decrease in the Net Resource Requirement of £213,364,000 and an increase in the Net Cash Requirement of £42,712,000.
5. Symbols are explained in the guide at the front of the volume.

**Spring Supplementary
Estimate
2015-2016**

Department of
Enterprise, Trade and
Investment

DEPARTMENT OF ENTERPRISE, TRADE AND INVESTMENT

Introduction

1. This Estimate provides for expenditure by the Department of Enterprise, Trade and Investment to promote the growth of a competitive and export-led economy.
2. The Department also has a potential discounted liability of £61m to meet claims in respect of employers and public liability claims arising from the collapse of the Harland & Wolff insurers
3. Non statutory contingent liabilities undertaken in the privatisation of the electricity industry in Northern Ireland were notified to Parliament in May 1992. Two contingent liabilities now remain, the costs of which are unquantifiable.
4. This Supplementary Estimate reflects the changes to the opening Budget position for 2015-16 made in the June, November and January monitoring rounds advised to the Northern Ireland Assembly as well as the in-year changes to the Annually Managed Expenditure (AME) forecast.
5. As a result of all changes there is an increase in the Net Resource Requirement of £36,238,000 and an increase in the Net Cash Requirement of £5,374,000.
6. Symbols are explained in the guide at the front of the volume.
